

## TOTAL ENVIRONMENT

Nature knows no man-made boundaries. Big cities are getting bigger and so are their problems. Erosion is not limited to agricultural land.

The U. S. Department of Agriculture can assist cities in meeting their environmental problems through agriculture-based technical knowledge.

One way of helping to solve these problems is use of the soil survey in planning new home sites. Contact your Soil Conservation Service office in Elba or Enterprise.

## DELAY MEANT SUCCESS

Sometimes it pays to have a conservation job delayed. Ed Windham of the Damascus Community applied for ACP assistance to retrace a 14 acre cropland, with the intention of getting it done this spring. However, he broke the land before a contractor could be obtained. Not wanting to break the land again, he decided to put off the terracing.

All was not lost though as Windham got the contractor to go ahead and shape two waterways in the field. These waterways have already been planted to Coastal Bermuda. So, next year or this fall when he gets around to doing the terracing, a soil of bermuda will be there to handle the run-off water from the new terraces.

## TOMORROW'S COMMUNITIES

Pure air, clean water, stable soils, productive crops, pasture, range and forest lands, abundant wildlife and natural beauty are essential if man is to live in harmony with his natural environment.

The space for growth is in rural America. Through wise conservation and development of natural resources, rural areas can be ideal sites for communities of tomorrow.

Your soil conservation district can help our community with its plans for future growth.

## CLEANUP SEMINAR

The recent rural cleanup seminar conducted by the Farm Bureau at Enterprise State Junior College was most interesting and informative. A follow-up meeting will be held May 1 to kick-off the cleanup project in Coffee County.

Unless the citizens of our county show their support...

## ASC Committee Fight Growing Gullies

The Coffee County ASC Committee has received approval from the State ASC Committee for a special ACP practice for 1969. Application for cost shares should be filed at once with the Coffee County ASC Committee at its office in New Brockton. Cost shares are available for this practice at 80% of the estimated cost.

Further growth of present gullies can be stopped and areas already damaged can be healed. This practice will prevent severe loss of fields, roads, streams, and buildings when conservation measures are applied on the

## Farmers Warned Of Child Labor Restrictions

Several thousand youngsters will work on farms across the state this summer. Their employers, "cautious Extension Public Affairs Specialist Fred Woods," must conform to the wage and hour restrictions that apply to a worker under age 16, unless the youth works on his family's farm.

Non-family youths are not allowed to handle most pesticides and herbicides. They cannot operate power driven vehicles or power

equipment such as a saw or post hole digger. And old to operate farm equipment, adds Woods. "However, the employer must keep the youth's training program certificate during the period of employment."

MAJOR MEDICAL PLANS GRADED TO TODAY'S NEEDS. I'll be glad to tell you about them.

NUMBER 42

## AT CITY HALL

The Elba City Council met on Monday night for the first meeting of the month. All members were present and voting.

The first order of business was the police report on results of cases brought into Recorders Court by the local police. Smart reported that 59 were found guilty, in ten cases the complainants (private citizens) withdrew the warrants and six were found not guilty.

The current bills were read and approved for payment with the exception of a \$100 insurance bill that was held for clarification. The current bills for the month of May totaled \$4,779.59 but included the \$1,200 for the radar unit purchased last month.

Bids were opened on the construction of the T-Hangers at the Elba airport and Robert King Construction Co. was low with a bid of \$18,322. There will be nine hangers, an office and a repair shop. King has ninety days to complete the construction.

Prior to accepting the bid on the construction of the hangers, the council discussed the proposal for joining Enterprise in the construction of a joint City County airport. This was voted down with all present voting against it with one exception. Councilman Sawyer did not vote on the issue since he owned property around the present airport.

A motion was passed instructing the City Clerk to begin collecting a garbage fee from every household in the city limits. This was due to the ever increasing cost of garbage collection and the fact that many who are not paying the garbage fee are throwing their garbage in unauthorized places.

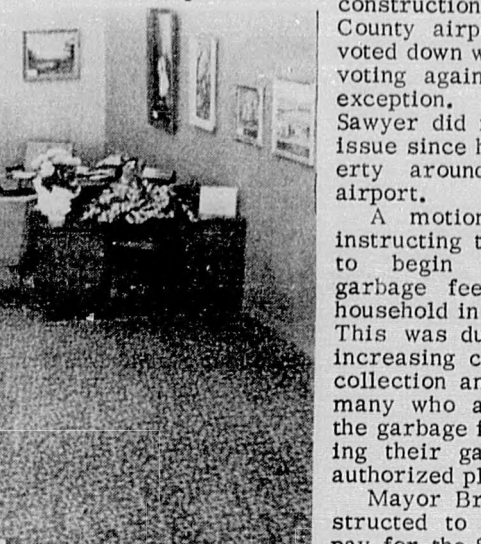

Mayor Brunson was instructed to seek funds to pay for the \$12,500 cost of the new pool and bathhouse in Mulberry Heights. The money would be paid back at a rate of \$1500 per year from the cigarette tax fund, which is set aside for recreation.

The council voted to authorize a \$10,000 payment to Robert King for the first partial payment on the construction of the Mulberry Bath House.

## 250 Units Of Housing Planned

The Elba Housing Authority announced Tuesday morning that it had applied with the Federal Government for approval of a plan to construct 250 new rental units in Elba immediately. One hundred of the units will be low rent housing similar to those now under the authority's control. They would be built with Federal funds.

One hundred and fifty of the units would be "leased," which means that private individuals or groups would build the housing and the Housing Authority would lease them for a fixed amount each month for a pre-selected number of years. The leases are guaranteed by the federal government and the Housing Authority is responsible for all repairs and maintenance and also for renting the units. These would not be confined to low income families.

According to Mrs. Mary Flowers, Housing Authority director, approval of the lease units is expected within thirty days. She could give no estimate on the time for approving low rent units. Mrs. Flowers stated that several local people and groups are interested in building the private owned units.

We are going to solve the housing problem in Elba. It may take a couple of years, but we are going to do it," said Mrs. Flowers on Tuesday following the Monday night meeting of the Housing Authority. She said that as soon as the present 250 units had been completed and filled,

## Visiting Hours Set At Elba General Hospital

Visiting at Elba General Hospital has increased to such an extent that the hospital staff is unable to cope with the situation. They cannot perform their duties efficiently and give the patients the attention they need and deserve. The doctors have agreed that they cannot see their patients due to so many visitors in the room or in the hall.

When the hospital was opened to the public at anytime, it was hoped to eliminate the morning visiting, and this would enable the staff to do their routine work without interruption, and then the patients would be ready for visitors during the remainder of the day. Experience has shown that this did not help, therefore it is necessary for the hospital to revert to regulated visiting hours.

Visiting hours will be from 9 a.m. until 9 p.m. In case of a critically ill patient or small children, one person will be allowed in the room at all times. This regulation is made for the benefit of the patient and the staff of the hospital urges the public to help by cooperating with these new hours.

## Water Map Of County Released By State

A water availability map of Coffee County (Map 76) supply are depicted in the newly researched material.

Information for 101 drilled wells which includes the depth, water-bearing unit, water level and other pertinent data including location is given.

This provides the kind of information needed for a prospective industry, the expansion of a municipal supply, for agriculture development, and for the private citizen planning a domestic water supply.

The investigation of the geology and water resources of Coffee County was made by the U. S. Geological Survey in cooperation with the State Geological Survey and may be ordered through the Librarian, Geological Survey of Alabama, P. O. Box 0, University, Alabama 35486, at a cost of \$1.00.

**HOUSEHOLD HINT**

To brighten basement stairs, carpet them with deck canvas, an extra-tough cotton fabric available at awning shops or marine supply houses. It comes in 31 to 33-inch widths. Glue canvas down with fabric cement. To give the natural-colored fabric a bright look as well as more durability, paint each step a different eye-catching color.

## Jeffcoat Named To Head Electric Co-Op

A Covington County industrial leader has been re-elected president of the Alabama Electric Cooperative board of trustees, Gaines R. (Ray) Jeffcoat, vice-president and general manager of the Opp and Micolas Cotton Mills at Brundidge.

The officers were elected during the annual business session of Alabama Electric earlier this month. Annual business included reports from the officers and from Wesley Jackson, general manager.

Alabama Electric is an Andalusia-based electric generation and transmission cooperative. It produces and transmits bulk electric power to member cooperatives, municipalities and industries. The Alabama Electric system stretches across South Alabama from the Georgia

South into Northwest Florida. The cooperation is in the final stages of a \$20 million expansion and modernization program, which includes the new \$12 million Tombligh Power Plant which began operation this month on the Tombligh River in Washington County.

**WHAT IS A BANK FOR?**

To provide financial services to you?....

OR

To make profit for stockholders?....

Both answers are correct. We know banks, like other institutions, are in business to make money. We agree with this. But we also know that banks are in business to help us with our financial needs.

Hopefully, we all will own some bank stock some day. That would be nice. But until we do, the importance of the bank to us is the service we receive from it.

A small group of big-city financiers have joined together to try to acquire State National Bank and its branches in order to make millions of dollars in stock profits. They hope they've found a loophole that will allow them to get around the long-established Alabama law against the statewide branching of banks.

The legislature is being asked to pass a bill to make it IMPOSSIBLE for them to twist the wording of the law into a loophole. YOU have a big stake in this legislation. If it passes you'll still be able to talk to your local banker about your personal problems. If it fails, you may find yourself trying to explain a personal financial emergency to a branch manager who is sent in from some far-off city - who doesn't know about local problems and who would not have the authority to help you if he wanted to.

If you ever own a quarter of a million dollars worth of bank stock you may be in favor of statewide branch banking. Until then, your interest in your bank is the service and understanding it offers you.

## Chevrolet Pacesetter Values.

\$147.00 less than last year's Camaro with comparable equipment.

If you equip Camaro with Powerglide, the new 250-hp 350 V8 that runs on regular gas, advanced-design power disc brakes, whitewall tires and wheel covers, the price is \$147\* less than last year's model with comparable equipment, including head restraints.

\$69.00 less than last year's Chevelle with comparable equipment.

We're not talking about a stripped-down car, either. We're talking about a Malibu Sport Coupe with head restraints and a 200-hp V8 that runs on regular gas. If you add Powerglide, power disc brakes, wheel covers and whitewall tires to your Malibu, you'll find it's \$69\* less.

\$101.00 less than last year's Impala with comparable equipment.

Add a few options like these to your Impala: Turbo Hydramatic. Big 300-hp V8. Power disc brakes. Head restraints. Whitewalls. Wheel covers. All together, the price is \$101\* less than it was for last year's Impala, comparably equipped. Putting you first, keeps us first.

BUYING POWER Who controls America's buying power? The youth market — that half of the U. S. population that is under 28?

The answer is no, it was pointed out to me that in this group are infants, preschoolers and elementary school children who are hardly buyers of goods. Those over 30 are making the money—probably twice as much as people under 30 and maybe 40 or 50 times as much as teenagers.

This over-30 group is the second youth market. They think young and like youthful, colorful advertising. But, they have broader interests and responsibilities, more knowledgeable tastes and more power to decide how and where to spend their larger incomes. This mature consumer is America's number one buyer.

perfect attraction for a dangerous killer—tetanus, also called lockjaw. Tetanus germs can enter the body through minor wounds that may require no medical attention.

Tetanus kills half of its victims. Early symptoms may be restlessness, irritability and muscle stiffness in the jaw, neck or limbs. However, by the time symptoms appear, the nervous system is affected and the victim is beyond medical help.

With spring and a return to outdoor work, I'd like to remind families to protect themselves with the inexpensive immunization. Many county health departments offer this service free. And this immunization is nearly 100 per cent effective.

Take steps to prevent the tetanus killer. Get a tetanus shot.

## Glass Collecting Gaining In America

More and more people are beating the bushes for cut glass, a type of glass manufactured in this country from 1880 to 1905. Although cut glass from this period is not yet scarce, Miss Alice Peavy, Auburn University Extension specialist in home furnishings, said, antique shops are now anticipating a growing demand. Persons with an attic or basement containing old bottles should inspect them carefully for glass items of value.

If any are found, she said, look up its value, as prices will vary from \$5 to \$50, not only on the piece but sometimes from shop to shop. Also, she noted, fine wine sets advertised at \$60 to \$65 at the turn of the century now bring as much as \$200 to \$250.

The proper mowing heights for the different grasses are: Zoysia grass, three-fourths to one and one-half inches; Bermuda grass, one-half to one and one-half inches; Centipede grass, one and one-half to two and one-half inches; and St. Augustine grass, two to two and one-half inches.

## Enterprise Lions Offer Scholarships

The Enterprise Lions Club has announced plans to award three scholarships annually to graduates of high schools in Coffee County.

Bill Ward, chairman of the scholarship committee, said the gifts of approximately \$180 each would cover basic junior college fees. All recipients will attend Enterprise State Junior College.

"This way, we can stay in close contact with the recipients," Ward said, "it will not be like sending the students away where we would lose contact with them and never know what good our money had done."

Ward said information on the new scholarships was being distributed to principals and guidance counselors at all high schools in Coffee County. He hopes to have all applications and be able to make the awards for 1969-70 by May 20.

Ward said Lions President Brown Bryars would appoint a committee to study the applications and make recommendations.

The Lions Club has awarded scholarships to ESC students from time to time since the institution opened in 1965. This is the first time, however, that the club has undertaken the project on a continuing basis.

are quite sharp. Because of its high lead content, cut glass is usually heavy. A good bit of the cut glass turned out after 1895 bears the trademark of the manufacturer stamped on it with acid.

## Gas Company Plans To Raise \$50 Million

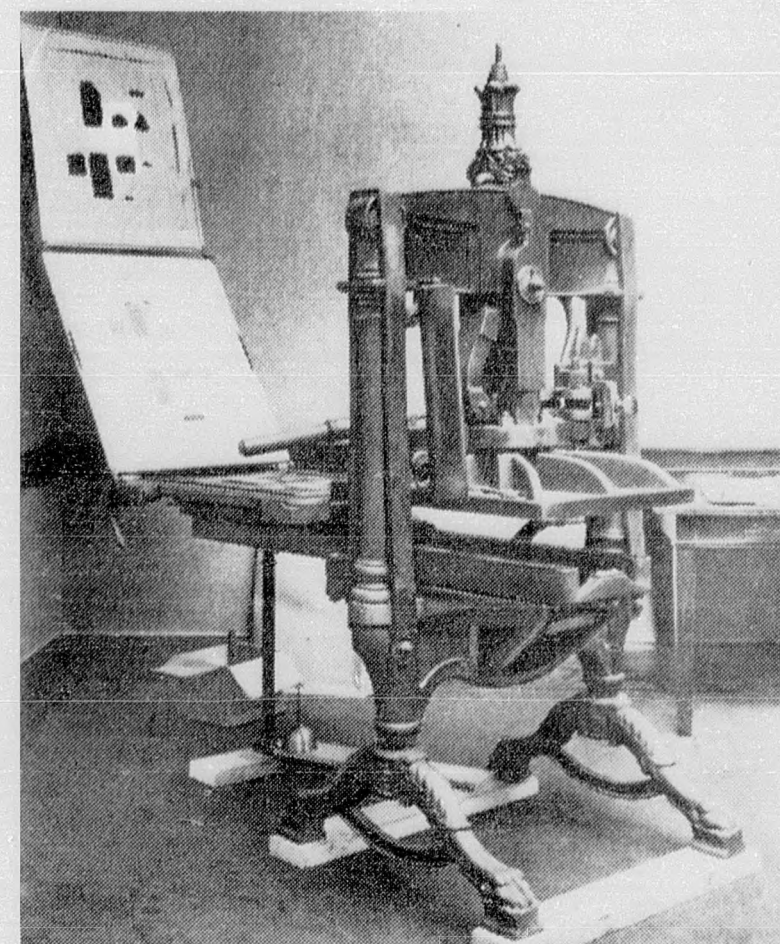

Southern Natural Gas Company announces that it is filing today a registration statement with the Securities and Exchange Commission for a proposed public offering of \$50,000,000 Debentures due May 1, 1972. Net proceeds from the sale of the Debentures will be used mainly to reduce short-term borrowings incurred to finance pipeline construction and the Company's investment in Bolse Southern Company, a joint venture with Bolse Cascade Corporation for a pulp and paper mill complex in Louisiana.

Southern Natural Gas Company is principally engaged in the interstate transmission and sale of natural gas, at wholesale and other companies and municipalities, and directly to industrial users. The Company also owns approximately 83% of the common stock of the Off-shore Company, a major oil and gas drilling firm specializing in marine operations.

Blyth & Co., Inc. has been named as manager of a nationwide group of underwriters to handle the public offering, which is expected this month.

True cut glass has distinguishing characteristics. It possesses a brilliant sparkle when held to the light. It lacks the little ridges inside and directly opposite the incisions on the outside which are characteristics of pieces cut on fire-finished cut blanks.

When tapped with a pencil or similar object or struck with a fingernail, cut glass gives a clear, resonant ring. Where pressed glass has smooth edges, edges of cut glass

## WISE FURNITURE CO.

WE SERVICE WHAT WE SELL

By Tom Canaday, County Extension Chairman

**OPPORTUNITIES**  
At the meeting this past week in Montgomery, Mr. Ted W. Davis of Winndixie and Kwik-Check had this to say concerning Alabama produced products:

"We are unlimited in what we can purchase from you," Governor Brewer said on the same occasion. "It is appropriate that recognition be duly given to the value and promotion of Alabama grown products."

I am quoting these two distinguished men and leaders to point out that we have in Coffee County great opportunities to increase production of cattle, hogs, poultry, vegetable crops as well as peanuts, corn and cotton.

#### HOT HOUSE PRODUCTION

Clayton Stanley of Route 2, Elba is becoming enthusiastic as he makes plans for building a small hot house to grow tomatoes, Stanley works at Dorsey Trailers in Elba and has some spare time. He has thought for several months about growing tomatoes year round. Even though Stanley knows that this is a highly technical business, he is willing to try.

I have made plans for Perry Smith and our Extension Truck Crop Specialist to visit with him early in May to go over some of the pitfalls. If other Coffee County folks are interested in this, get in touch with me and we will help you.

#### OPTIMISTIC

My banker friends in the county, especially D. F. Reeves of the Citizens Bank in Enterprise, accuse me of being too optimistic of several things. Right now I am optimistic of several things in Coffee County and two of these are the production of cattle and hogs this year. In the first place, hog prices are holding up extremely well; cattle prices are better than in several years and our pasture ought to be better in May and June than they have been in years' due to rainfall and better fertilization. So I am optimistic about these two farm enterprises.

Weather folks can be wrong but one leading forecaster is saying that more rainfall than usual is expected in May. In fact he says, "abundant moisture is expected over most of the South right on through this summer and it will begin with very heavy rains in May." We will see; I hope that events will show that I am not overly optimistic.

## COTTON FARMERS TO VOTE

Cotton farmers in Coffee County will vote this month to decide whether, in 1970, they want to be able to sell or lease their cotton allotments outside the county, Roy L. Ellis, Chairman, Agricultural Stabilization and Conservation County Committee, has announced. The referendum applies only to 1970 and will be conducted by mail during the period of May 3 through May 9. Ballots may also be delivered by hand to the ASCS county office.

The only question to be decided by the balloting is whether upland cotton allotments may be transferred during the next year to other farms by sale or lease. Such transfers may be made by sale or lease for a period of time agreed on by the parties involved. In no case may transfer be made outside the State. An affirmative vote by at

WHAT STREET ARE YOU ON? This will soon be a little easier to answer as city employees are replacing those signs that have been either bent or turned in the past few years.

**Nancy Brock Awarded Scholarship**  
Nancy Brock, daughter of Mr. and Mrs. Ben Brock, has been awarded the Alabama Federation of French Clubs Scholarship. She was notified of the honor by the Financial Aids Awards Committee and the Department of Romance Languages of the University of Alabama. The scholarship is for the academic year of 1969-70.

To be eligible for this award a student must be a member of a high school French Club with state federation, have recommendations from his or her local French teacher, principal and one other citizen and also present an outstanding academic record. Students from over forty schools apply for this scholarship each year (Birmingham, Mobile, Montgomery included) and a student from Elba has been the recipient for two of the three years it has been awarded. Glen Bedsole was the first person to ever receive the award.

Nancy is a senior at Elba High School and plans to enter the University of Alabama this summer.

**Girls Softball And Pony League Planned**  
The Elba Recreation Board is trying to organize a girls softball league and Pony League baseball for boys. Any person interested in playing in either sport or adults interested in coaching these teams are urged to contact Recreation Board members, Lamar Daniels, Wayne Boswell or Eugene Jacobs. A member of the Recreation Board will be at the City hall this Saturday morning to discuss the leagues and to sign up volunteers.

**CONGRESSMAN GEORGE ANDREWS ASKS FOR SPECIAL COINS**  
Congressman George Andrews this week introduced a bill directing the Secretary of the Treasury to strike 5,000 silver and 50,000 bronze medals commemorating the 150th anniversary of the founding of the State of Alabama.

Under provisions of this bill co-sponsored by the other members of the Alabama delegation, the Alabama Sesqui-centennial Commission will determine the emblems, inscriptions, and related specifications for the medal.
